

s/y BAVARIA C50 for charter in Greece

BAVARIA YACHTS present the fourth sailing yacht of the new C-line, the new (2019) BAVARIA C50. Elegant Design Full of Dynamism.

The design of the BAVARIA C50 is setting new standards in the 50-foot class of sailing yachts. The elegant smooth lines of the hull, which are highlighted by the large hull windows, reveal the dynamics of the BAVARIA C50. With 5+1 cabins, 3+1 WC, ready for charter in Athens Greece.

Together with the development team at BAVARIA, COSSUTTI YACHT DESIGN developed these lines and design elements that are otherwise only seen in the world of superyachts. Renowned Yacht Designer Maurizio Cossutti and his team have done some outstanding work. They created a masterpiece in the BAVARIA C50, with its elongated hull three big windows, the long window strip, and the special cockpit design, divided discreetly into sailing and relaxation areas so you can enjoy both aspects in full.

More sun and lounge areas can be found on the structure and on the forecabin. So nothing stands in the way of a relaxing stay in a sheltered bay or in port. The special selection of woods and upholstery is also part of the BAVARIA C50 STYLE and affords the highest level of personalization.

s/y BAVARIA C50 for charter in Greece

A touch of superyacht, even below deck on the BAVARIA C50, there are a number of elements that can otherwise only be found in superyachts. Flush hatches as part of a clever light and ventilation concept below deck. The structure and the tidy forecabin of the BAVARIA C50 emphasize the extended lines of the hull.

Everything feels enormous. For example, sit on the big lounge sofa at the saloon table, surrounded by lots of natural light streaming in through the stylish light-strip. In the evening, an intelligent LED lighting concept creates a pleasant atmosphere. The navigation area on the starboard side is not just the central area for all navigational issues; it is also the control center for all systems onboard and, of course, a complete home office for anyone who can't stay away from the office even on holiday.

As soon as you enter the saloon, you are struck by the unique lighting concept onboard the BAVARIA C50 and by its spacious luxury. On the port side, the pantry leaves nothing to be desired and can cater to any size of crew dinner. Numerous workspaces and stowage areas make the pantry a pleasure to use, even at sea. The cooling options alone amount to 250 liters from the fridge to the freezer.
