

M/S ROTTA

Traditional crewed motor-sailer yacht

Overview

ROTA II is a classical motor-sailer built in the shipyard of 'Akerboom' in Lisse Holland, in 1958. It carries the registration number 130 among the 150 boats that were built by 'Akerboom' and it is the only one in Greece. It has been completely renovated for 4 years (1996-2000) in all sectors (engineering- electric-electronic-hydraulic-saving equipment etc). The hull is made of high quality steel and all wooden constructions are made of high quality teak and iroko.

She has all the elegance, style and luxury of a classical motor-sailer and in combination with the comfortable interior and exterior salons, is most suitable for safe, relaxing and joyful holidays.

Our yacht has a very low fuel consumption (only 60 lts/hour for both engines) and great independence in fuel and drinking water, thus giving our guests the privilege to enjoy the vastness of the Greek seas and islands and to explore thousand unique destinations.

Leisure

Water-ski, o-ring, windsurf, canoe for 2-persons, double banana, diving equipment (upon request), tender 3.65m with Honda 40hp 4-stroke (outboard), movies collection, audio equipment indoors in lounge and outdoors with CD collection, lap top and Wi-Fi access
